

A Day @ St John's

St John's Institute of Dermatology
Guy's and St Thomas' Hospitals NHS Foundation Trust

Unique Features of "A Day @ St John's"

- An excellent opportunity to learn from the world's leading experts in Dermatology
- An exclusive opportunity to participate in St John's Grand Round
- A chance to network with both trainees and consultants at St John's Institute of Dermatology
- Top tips and advice from Dermatology Specialist Registrars on the NTN application process
- Advice from clinical and research fellows on options if you do not get the NTN
- A small number of attendees per session: maximum 25
- Not for profit course: proceedings will go towards educational resources and programmes for trainees at St John's.

Course Objectives

- 1) To teach junior doctors how to assess and manage essential Dermatological conditions including emergencies
- 2) To give an insight into Dermatology as a specialty
- 3) To give an insight into career choices within Dermatology (clinical and academic)
- 4) To provide an opportunity for junior doctors to network
- 5) To give advice on the highly competitive application process for Dermatology NTNs
