Dear colleague,

**RE: Fast-track Cluster Headache Clinic**

Your patient has contacted us requesting assistance with managing their cluster headache. We are now offering a fast-track Cluster Headache Clinic where patients are assessed by our multidisciplinary headache team in order to offer advice and treatment to help manage their condition.

The aim of this clinic is to help patients receive prompt diagnosis and treatment of cluster headache when they are currently in a bout, or expecting to be shortly.

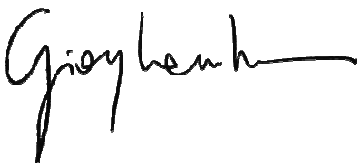

We are happy to see patients who are not currently under the care of neurologist/headache specialist but have a confirmed or probable diagnosis of cluster headache. We will also see those who are under the care of another neurologist/headache specialist for this condition but are unable to get an appointment in a timely manner. In this case, we would see them for a one-off appointment to provide interim advice or treatment until they are able to see their usual specialist.

If you would like to refer your patient to our Fast-track Cluster Headache Clinic, please email us at [gst-tr.CHClinic@nhs.net](mailto:gst-tr.CHClinic@nhs.net) with information relating to their diagnoses, medications, relevant scans and current headache specialist details if applicable.

For all other non-urgent referrals, please send these to [gst-tr.PainReferralsAndAdmin@nhs.net](mailto:gst-tr.PainReferralsAndAdmin@nhs.net) .

We will update you on their progress once we have seen them.

Yours sincerely,

DR GIORGIO LAMBRU  
Consultant Neurologist with special interest in Headache
