

Going home after your stay on the urology ward

The clinical team caring for you on the urology ward has decided that it is safe for you to leave hospital. However, we are still interested in your well-being once you are at home.

We may give you specific instructions and information leaflets on how to look after yourself at home. If you have any questions or concerns, please ask the staff looking after you before you leave.

If you develop any problems at home that you think might be related to the treatment you have received on the urology ward, please do not hesitate to call the ward you stayed on at any time:

Aston Key Ward 020 7188 8860

Florence Ward 020 7188 8818

Nuffield Ward (4th Floor) 020 7188 5276

If you need to attend your GP or local hospital, or call NHS 111 for advice, or receive any other treatment, please make sure you tell them that you have received treatment in hospital recently. It may be relevant to the care and information they provide.

Medicines to take home

Before you leave the ward, please check that you have received any tablets that you need to take with you and have instructions about how to use them.

The **Pharmacy Medicines Helpline** is available to answer questions about your medicines:
t: 020 7188 8748 9am to 5pm, Monday to Friday

Follow-up appointments

For the urology clinics: You should receive an appointment within one week. Please contact the urology bookings administrator on **020 7188 2443** if you have any questions.

For lithotripsy: You should receive an appointment within one week. Please contact the outpatient appointment administrator on **020 7188 7638** if you have any questions.
