

Our quality story animation: transcript

Narrator:

Welcome to Guy's and St Thomas'. We're more than just a hospital.

Our 13,000 staff are here to make sure that you get the best treatment, whether it's at one of our hospitals, a local health centre, or even in your home.

Every day, thousands of people pass through our hospital doors and our staff see more than 3,000 patients in the community.

Each year, we deliver nearly 7,000 babies.

The average waiting time for an admitted treatment is seven weeks, half of our patients are treated within just four weeks, patients with suspected cancer are seen within two weeks.

Our staff work hard to prevent infection. We screen over 98% of inpatients for MRSA.

Our hospital is clean, we scored 99% for cleanliness in a recent assessment led by patients.

The independent hospital guide, Doctor Foster, awarded us London Trust of the Year in 2013 for safe care.

Our patients regularly give us some of the best scores in the NHS Friends and Family Test.

But we are always looking for ways to improve. By managing our finances we can invest in the very latest equipment and buildings.

Why not find out more about how we are doing.
