

# Looking after your wound that has been glued

**This leaflet gives you information on how to look after your wound. Please see your GP or refer to the contact details below if you have any questions or concerns.**

Your wound has been closed using special medical glue. This glue must stay in place until your wound has healed, which will take about five to six days. The glue forms part of the scab. Do not pick at it – it will come off gradually by itself.

**If you have diabetes or suffer from diabetic neuropathy, please let the staff treating you know so that we can tailor your treatment accordingly.**

## Looking after your wound

Please follow the advice below:

- Keep your wound clean and dry
- Do not wash the area or get it wet for seven days
- Leave the dressing on for \_\_\_\_\_ days and once it is removed remember not to pick at the scab.

If your wound is on your face or head please leave your wound open to the air without a dressing.

## Pain relief

You can buy pain-relieving medication such as paracetamol or ibuprofen over the counter. This should be enough to relieve your pain if you take it regularly by following the instructions on the packet. Check that the painkillers will not react with any other medication that you are taking. Ask your pharmacist if you are unsure.

## What should I do if I have a problem?

Please consult your GP if there are signs that your wound is infected, such as:

- Your wound becomes red or swollen
- Your wound becomes very painful
- Your wound reopens completely
- There is pus or blood coming from your wound.

## Useful sources of information

### Contact us

If you have any questions or concerns about looking after your wound, please contact the Urgent Care Centre at St Thomas' Hospital, **t: 020 7188 6182** (8am-12 midnight).

For more information leaflets on conditions, procedures, treatments and services offered at our hospitals, please visit [www.guysandstthomas.nhs.uk/leaflets](http://www.guysandstthomas.nhs.uk/leaflets)

### Pharmacy Medicines Helpline

If you have any questions or concerns about your medicines, please speak to the staff caring for you or call our helpline.

**t:** 020 7188 8748 9am to 5pm, Monday to Friday

### Your comments and concerns

For advice, support or to raise a concern, contact our Patient Advice and Liaison Service (PALS). To make a complaint, contact the complaints department.
