Making your stay with us safe
8 simple steps to keep yourself safe during your stay in hospital.

**Preventing falls**

- Wear the red hospital socks, laced up or snug fitting shoes or slippers with rubber soles.
- Use your usual walking aids.
- If you need any assistance, tell us.

**Preventing blood clots**

- Wear your hospital stockings if advised and move as often as you can.
- Try to do simple leg and ankle exercises.
- Drink fluids as recommended.
- Take blood-thinning tablets or injections as advised.
**Preventing infection**

- Wash/decontaminate your hands before and after visiting the toilet, and before all meals.
- Don’t hesitate to ask our staff if they have washed their hands before any contact with you.
- Tell us if you have diarrhoea or vomiting.

**Your medicines**

- Tell us if you have an allergy, or if you do not understand what your medicines are for.
- Talk to your doctor, nurse or pharmacist about any concerns you may have.
- Ask about possible side effects.

**Pressure ulcers**

- If you can, try to keep mobile, even in bed, and call us if you are uncomfortable.
- We are very happy to help you change position, and can provide a special mattress or cushion for support.
Any concerns

• We are here to help you — talk to us if you have any worries or concerns about your treatment, or about what will happen when you leave hospital.

Leaving hospital

Before you leave, make sure you:
• Have your discharge letter.
• Have your medicines and they have been explained to you.
• Know who to contact if you have any questions or concerns.
• Know when your next appointment is.
