

Going home after your stay on the urology ward

The clinical team caring for you on the urology ward has decided that it is safe for you to leave hospital. However, we are still interested in your wellbeing once you are at home.

We may give you specific instructions and leaflets on how to look after yourself at home. If you have any questions or concerns, please ask the staff looking after you before you leave.

If you develop any problems at home that you think might be related to the treatment you have received on the urology ward, please do call the ward you stayed on, at any time:

Aston Key Ward t: 020 7188 8860

Florence Ward t: 020 7188 8818

Nuffield Ward (4th floor) t: 020 7188 5276

If you need to go to your GP or local hospital, or call NHS 111 for advice, or receive any other treatment, please make sure you tell them that you have received treatment in hospital recently. It may be relevant to the care and information they provide.

Medicines to take home

Before you leave the ward, please check that you have received any tablets that you need to take with you and have instructions about how to use them.

The Pharmacy Medicines Helpline is available to answer questions about your medicines:
t: 020 7188 8748, Monday to Friday, 9am-5pm.

Follow-up appointments

For the urology clinics

You should receive an appointment within one week. Please contact the urology bookings administrator, t: 020 7188 2443, if you have any questions.

For lithotripsy

You should receive an appointment within one week. Please contact the outpatient appointment administrator, t: 020 7188 7638, if you have any questions.
